

UCO®140 MAX Wash

Unique touchless cleaner

UCO®140 Max Wash is an ultra concentrated alkaline exterior vehicle cleaner.

The blend of quality ingredients enables an efficient cleaning process to remove the dynamic and static road film with ease (removal of dirt, insects, bird droppings and grease).

Due to efficient tensio actives UCO®140 will accelerate your washing process (short contact time).

UCO®140 MAX Wash is ideal for touchless washing, cleaning of heavily soiled vehicles, and other time and water conscious vehicle washing centers.

The specific foaming guarantees a good coverage of the entire vehicle and a better soaking power of the dirt.

Unique corrosion inhibitors make UCO®140 safe to use at recommended dilutions. Our proof is the independent conformity attest: UCO®140 has a VDA Class A at 2,5%.

Applicable for automatic and manual cleaning of surfaces and vehicles in the food industry.

Application

Commercial vehicles, agricultural and construction vehicles, and machines. Steel and alkali resistant painted alu rims.

Apply UCO®140 using a spray, high pressure or foaming device.

Allow dilution to soak in, never allow to dry. Clean thoroughly with a high-pressure cleaner.

Dosage

Vehicle cleaning 0,5-2% or 1/200 – 1/50

Via a foam gun: 1/5 – 1/20

Insect removal: 3%.

Rim cleaning and strong degreasing: 10-15%.

Copolymer removal: 10%.

Storage and disposal

Store only in the original container in a cool, well-ventilated place. Keep the container closed when not in use. Dispose of safely in accordance with local/national regulations.

Safety instructions for the user

Keep out of reach of children. Minimize the risk of eye contact. In case of contact with eyes, rinse immediately with plenty of water. Consult a doctor if pain, blinking, or redness persists. Please consult the safety data sheet.
