

UCO®175 MicroPowder Fast

Concentrated fast soluble carwash powder with tropical scent.

UCO®175 MicroPowder Fast can be used for automatic powder dosing systems (selfwashes).

An optimal particle sizes contributes to great solubility and ensures a great flow of the product.

UCO®175 can be used in different water types and the recommended temperature range is between 40 and 60 °C.

The blend of quality ingredients enables an efficient cleaning process to remove the dynamic and static road film. An optimal pH value can be achieved when respecting the recommended dilution.

A pleasant exotic fruit perfume is dispersed to optimize the customer experience.

Unique corrosion inhibitors make UCO®175 safe to use for vehicle and carwash installation.

Application and dosage

Fill the tank with powder (do not overfill).

Consumption per minute depends on the amount of water used and desired result.

8-18gr/min is recommended with a high-pressure unit (8 - 15 L/min at 100 - 120 bar).

Storage and disposal

Store only in the original container in a cool, well-ventilated place. Keep the container closed when not in use. Dispose of safely in accordance with local/national regulations.

Safety instructions for the user

Keep out of reach of children.

Minimize the risk of eye contact.

In case of contact with eyes, rinse immediately with plenty of water. Consult a doctor if pain, blinking, or redness persists. Please consult the safety data sheet.
