

UCO®440 MAX Hydro Polish

Ceramic Foam Polish

UCO®440 MAX Hydro Polish is an innovative high value foam polish. Due to its unique composition, it provides a protective film over the entire vehicle. Making sure the vehicle is protected against various weather conditions and providing an optimal shine.

Even with low dosage a superhydrophobic effect will be created, making the vehicle visually protected and more easy-to-clean afterwards.

High quality components are bounded on the surface, offering a durable shine and protection.

UCO®440 is highly degradable and suitable for use all types of washing centers. In tunnel carwashes and rollover units used as foam polish, applied directly or indirectly on the brushes. For selfwashes used on the brush or even as wax step. It is suitable for hard and soft water and water. Cold water is advised as heated water is not needed.

An enjoyable fragrance is added to optimize the overall customer experience.

Application and dosage

UCO®440 MAX Hydro Polish is suitable for all types of washing centers.

Automatic carwashes: 5 to 12 ml/car is recommended.
