

UCO[®]230 PURO Brite

Concentrated acid cleaner

Definition

UCO[®]230 PURO Brite cleans minerals from acid resistant surfaces.

UCO[®]230 is highly suitable to remove inorganic dirt, rust, and other minerals from acid-resistant surfaces.

UCO[®]230 is recommended for wheel cleaning in washing facilities with water recycling systems. UCO[®]230 PURO Brite can be used for more delicate surfaces such as Alcoa Dura-Bright[®] rims.

UCO[®]230 can be used for train washing in a 2-step system (combined with an alkaline product).

Application and dosage

Dilute 5 to 20 % depending on the degree of pollution.

Spray from bottom to top, from left to right. Let the solution react for a short time. Do not let it dry out. Rinse under high pressure with clean water.

Brush if needed.

Specifications

Physical state	Liquid
Color	Red
pH	2 (1 %)
Density	1.2 kg/L
Solubility	Completely soluble in water

Storage & Disposal

Store in a dry, cool, and well-ventilated place (5–30 °C). Ensure a fire-safe environment. Do not expose to temperatures above 50 °C.

Store only in the original packaging. Do not open the packaging if not in use.

Opened packaging must be carefully sealed and stored upright to prevent leakage.

Dispose of empty packaging in accordance with local or national guidelines.

Safety instructions

Avoid contact between acidic and alkaline products. Never mix with chlorine-containing products.

Always test the compatibility of the product on a small surface.

Contact your UCO[®]Group representative for a customized cleaning and disinfection plan tailored to your company's needs.

Before use, please consult the safety data sheet for this product.
