

UCO[®]AQUA P700

Combined water disinfectant and biofilm preventor - ClO₂

Description

UCO[®]AQUA P700 is a chlorine dioxide based drinking water disinfectant highly effective at minimal dose.

UCO[®]AQUA P700 has a high penetration power in biofilm of drinking water systems. Hence it allows full bacteriologic control of the drinking water and drinking water system.

UCO[®]AQUA P700 ensures pure, clean and clear drinking water.

UCO[®]AQUA P700 is a broad spectrum disinfectant and integral part of UCO[®]LIFE CONCEPT that control spread of pathogens like E.coli, Clostridium spp, Legionella, Listeria, Salmonella, Algae, Protozoa and fungi.

UCO[®]AQUA P700 is used for drinking water disinfection for all animal species including poultry, swine, ruminants... but also for ensuring quality of different types of process water like hatcheries, dairy....

Properties

Superior drinking water quality.

Total biofilm control.

A healthy microbial balance in the proximal intestine contributes to optimal feed utilization and animal performance. This is especially important at the start of the production phase, as the intestinal flora of birds is still developing.

Can be used in organic farming.

Specifications (UCO[®]AQUA P700 B)

Physical state	Liquid
Color	Colorless
pH	11.3 (1 %)
Density	1.06 kg/L

Instructions for use

Add 2 liter of UCO[®]AQUA P700 A activator to 18 liters of UCO[®]AQUA P700 B to generate 20 liters of UCO[®]AQUA P700 and allow the product to activate during 24H.

Add 50 ml – 300ml (0,50L till 0.3L) per 1000L drinking water by means of a suitable dosing system, depending on the biofilm.

UCO[®] AQUA P700

Combined water disinfectant and biofilm preventor - ClO₂

Storage & Disposal

Store in a dry, cool, and well-ventilated place (5-30 °C). Do not expose to temperatures exceeding 50 °C.

Store only in the original packaging. Do not open the packaging if not in use. Opened packaging must be carefully sealed and stored upright to prevent leakage.

Dispose of empty packaging in accordance with local or national guidelines.

Safety Instructions

Primarily intended for professional, industrial, and agricultural use.

Avoid mixing acidic and alkaline products. Do not mix with chlorine-containing products.

Always test the product's compatibility on a small, inconspicuous area before full application.

Contact your UCO[®]Group representative for a customized cleaning and disinfection plan tailored to your company's needs.

Before use, please consult the safety data sheet for this product.

Use biocides safely. Before use, read the label and the information concerning the product.

The specified uses and registered claims for the product may vary from country to country. Please contact UCO[®]GROUP to verify country-specific approved uses.
