

UCO[®]CARE ONE DIP

Sustainable and effective post-milking care

Description

UCO[®]CARE ONE DIP is the modern barrier teat disinfectant for high-yielding dairy herds.

The balanced formulation, combining only skin-friendly ingredients makes UCO[®]CARE ONE DIP a superior skin care and even skin repair product.

UCO[®]CARE ONE DIP is fast and easy to apply by using UCO[®]CARE teat dip cups. No mixing required.

UCO[®]CARE ONE DIP is making control quick and easy of treated vs non treated cows by its excellent viscosity and coloring properties.

UCO[®]CARE ONE DIP is killing off mastitis causing bacteria and yeasts fast and in an effective way.

UCO[®]CARE ONE DIP is the product of choice for the control of both environmental and cow related mastitis.

Properties

Great coverage of teats by its premium barrier generation.

Its exfoliating effect stimulates the proliferation of new, soft and elastic teat skin, discouraging the viability of pathogens on the teat.

Product of choice for herds with high SCC.

100% Iodine-free.

100% CHLOR-free (absolutely no chlorine, chlorate, chlorine dioxide, chlorhexidine, etc.).

Part of the UCO[®]LIFE udder hygiene solutions concept.

Specifications

Physical state	Liquid
Color	Blue
pH	3.5
Density	1.04 kg/L

Instructions for use

Apply UCO[®]CARE ONE DIP on the teats by means of UCO[®]CARE teat dip cup immediately after each milking. Make sure each teat is completely covered with UCO[®]CARE ONE DIP for at least 75% of its length.

Keep the cows standing after treatment during sufficient time.

Consult with our UCO[®]LIFE consultant to establish the milking protocol your herd deserves.
