

UCO[®]DERM 7 DIP

Quick and effective post-milking udder care

Description

UCO[®]DERM 7 DIP is a fast and powerful teat care product

UCO[®]DERM 7 DIP offers teat protection by boosting skin care ingredients with well-balanced skin adherence.

UCO[®]DERM 7 DIP is easy to apply by using UCO[®]DERM teat dip cups.

UCO[®]DERM 7 DIP is making control quick and easy of treated vs non treated cows by its excellent viscosity and remarkable green coloring properties.

UCO[®]DERM 7 DIP can easily be removed with paper, towel or cloth during the next pre-milking protocol.

UCO[®]DERM 7 DIP is a reliable post-milking teat conditioner that ensures your cows have soft teat skin and teat ends and protects them against external hazards.

Properties

Great coverage of teats by its premium barrier generation.

Encourages a soft, hydrated, clean and disinfected teat skin after each milking.

Product of choice for herds with high SCC.

100% Iodine-free.

Part of the UCO[®]LIFE udder hygiene solutions concept.

Specifications

Physical state	Liquid
Color	Green
pH	2.8
Density	1.03 kg/L

Instructions for use

- Pour the 1L of UCO[®]DERM 7 B in the 19L canister of UCO[®]DERM 7 A and shake the freshly made solution vigorously.
- Let the solution activate during 6h
- Apply UCO[®]DERM 7 DIP on the teats by means of UCO[®]DERM teat spray bottle or any alternative teat spray system immediately after each milking. Make sure the application is done in a way to reach maximum teat coverage with UCO[®]DERM 7 DIP.
- Keep the cows standing after treatment during sufficient time.

Storing the freshly mixed solution up to 21 days ensures full efficiency of product.

Discard any teat spray that becomes contaminated or dirty.

Consult with our UCO[®]LIFE consultant to establish the milking protocol your herd deserves.
