

# UCO<sup>®</sup>DERM ONE DIP

*Post-milking udder care*

## Description

UCO<sup>®</sup>DERM ONE DIP is the modern barrier teat care product for sustainable and performant milk herds.

The balanced formulation, combining only skin-friendly ingredients make UCO<sup>®</sup>DERM ONE DIP a superior skin care and even skin repair product.

UCO<sup>®</sup>DERM ONE DIP is fast and easy to apply by using UCO<sup>®</sup>DERM teat dip cups. No mixing required.

UCO<sup>®</sup>DERM ONE DIP makes monitoring quick and easy thanks to its remarkable green coloring properties.

UCO<sup>®</sup>DERM ONE DIP is the ultimate post milking teat conditioner that ensures cows have soft teat skin and teat end and protects them against external hazards.

## Properties

Great coverage of teats by its premium barrier generation

Its exfoliating effect stimulates the proliferation of new, soft and elastic teat skin, discouraging the viability of pathogens on the teat

Product of choice for herds with high SCC

100% Iodine-free

100% CHLOR-free (absolutely no chlorine, chlorate, chlorine dioxide, chlorhexidine...).

Approval pending for use on organic farming

Part of the UCO<sup>®</sup>LIFE udder hygiene solutions concept

## Specifications

|                |           |
|----------------|-----------|
| Physical state | Liquid    |
| Color          | Blue      |
| pH             | 3.5       |
| Density        | 1.04 kg/L |

## Instructions for use

Apply UCO<sup>®</sup>DERM ONE DIP on the teats by means of UCO<sup>®</sup>DERM teat dip cup immediately after each milking. Make sure each teat is completely covered with UCO<sup>®</sup>DERM ONE DIP for at least 75% of its length.

Keep the cows standing after treatment during sufficient time.

Consult with our UCO<sup>®</sup>LIFE consultant to establish the milking protocol your herd deserves.

## Storage & Disposal

Store in a dry, cool, and well-ventilated place (5–30 °C). Do not expose to temperatures exceeding 50 °C.

Store only in the original packaging. Do not open the packaging if not in use. Opened packaging must be fully sealed and stored upright to prevent leakage.

Dispose of empty packaging in accordance with local or national guidelines.

## Safety Instructions

Primarily intended for professional, industrial, and agricultural use.

Avoid mixing acidic and alkaline products. Do not mix with chlorine-containing products.

Always test the product's compatibility on a small, inconspicuous area before full application.

Always consult the Safety Data Sheet for this product before use.

Consult with your UCO<sup>®</sup>LIFE consultant to establish the milking protocol your herd deserves.
