

# UCO<sup>®</sup> FLOW 240

*Strong concentrated alkaline, non-foaming CIP cleaner*

## Definition

UCO<sup>®</sup>FLOW 240 is a highly alkaline CIP cleaner based on NaOH and KOH suitable for the entire food industry.

## Properties

UCO<sup>®</sup>FLOW 240 is specially formulated for cleaning in the entire food industry where foaming is not desired.

UCO<sup>®</sup>FLOW 240 is particularly suitable for removing adhered, heavy soiling.

UCO<sup>®</sup>FLOW 240 is specially formulated for the cleaning of storage tanks, pipes, pasteurizers, CIP systems and washing systems.

UCO<sup>®</sup>FLOW 240 has a very strong complexing effect and can be used in all types of water hardness.

## Use

Dosage: 0.5-2% (depending on the degree of contamination) at a temperature of 40-90°C.

Contact time: 10-30 min.

Rinse with clean water.

## Specifications

Physical state	Liquid
Color	Yellowish
pH	13 (1%)
Density	1.30 kg/L
Solubility	Completely soluble in water

## Storage & Disposal

Store in a dry, cool, and well-ventilated place (5-30 °C).

Store only in the original packaging. Do not open the packaging if not in use. Opened packaging must be carefully sealed and stored upright to prevent leakage.

Dispose of empty packaging in accordance with local or national guidelines.

## Safety instructions

Avoid contact between acidic and alkaline products. Never mix with chlorine-containing products!

Always test the compatibility of the product on a small surface.

Contact your UCO<sup>®</sup>Group representative for a customized cleaning and disinfection plan tailored to your company's needs.

Before use, please consult the safety data sheet for this product.
