

UCO[®]SAN ONE

Foam cleaner based on hydrogen peroxide

Definition

UCO[®]SAN ONE is a slightly acidic foam cleaner formulated with hydrogen peroxide for cleaning all materials and surfaces in the food industry.

Properties

UCO[®]SAN ONE contains hydrogen peroxide for an extra cleansing and bleaching action.

UCO[®]SAN ONE is particularly effective for removing organic contamination as well as starch.

UCO[®]SAN ONE has a very effective (bleaching) effect for removing discoloration caused by blood, vegetables, herbs, or marinades.

Use

Dosage: 2-5% (according to degree of contamination).

Contact time: 5-15 min. (do not let the product dry out)

Rinse with pressurized water.

Specifications

Physical state	Liquid
Color	Colorless
pH	3,5
Density	1,1 Kg/L
Solubility	Completely soluble in water

Storage & Disposal

Store in a dry, cool, and well-ventilated place (5 - 30°C).

Store only in the original packaging. Do not open the packaging if not in use. Opened packaging must be carefully sealed and stored upright to prevent leakage.

Dispose of empty packaging in accordance with local or national guidelines.

Safety Instructions

Avoid mixing acidic and alkaline products.

Always test the product's compatibility on a small, inconspicuous area before full application.

Always consult the safety data-sheet for this product before use.
